

VON ASLEY G. MALILLOS

Full Stack Developer (Next.js / React / Node.js)

Santo Tomas, Batangas, Philippines | +63 999 7755 838 | vonmalillos@gmail.com

Portfolio: [add your portfolio/GitHub link here] | LinkedIn: [add your LinkedIn URL here]

PROFESSIONAL SUMMARY

Detail-oriented BS Information Technology graduate with hands-on, project-based experience building and deploying full-stack web applications using React, Next.js, Node.js, and PostgreSQL. Skilled in REST API design, authentication, role-based access control, and database design, with a track record of delivering working systems from requirements through deployment. Strong problem-solver and collaborative team member, eager to contribute as an entry-level Full Stack / Web Developer.

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript, PHP, Python, HTML5, CSS3, SQL
- Frameworks & Libraries: React, Next.js, Node.js
- Databases & Backend: PostgreSQL, Supabase, Prisma ORM, REST API design
- Tools & Practices: Git, GitHub, Authentication & Role-Based Access Control (RBAC), Agile/Scrum basics, CI/CD-ready deployment

ADDITIONAL SKILLS

- Microsoft Office: Word, Excel, PowerPoint, Outlook
- Computer Systems & Configuration: hardware/software troubleshooting, OS installation, network setup, systems servicing (TESDA NC II training completed)
- Customer Service: client communication, technical support, contact center operations (TESDA NC II training completed)

EXPERIENCE

Freelance Full Stack Developer

2025 – Present

- Built and deployed custom capstone web systems for college students, including student information and attendance management platforms
- Designed relational database schemas and implemented end-to-end frontend and backend features using React, Next.js, and PostgreSQL
- Implemented authentication, CRUD operations, and role-based access control (RBAC) across multiple client projects
- Owned system testing, deployment, and post-launch maintenance for [# of] delivered projects

Full Stack Developer – On-the-Job Training, Certicode

2025 – 2026

- Developed and documented backend REST API endpoints as part of a cross-functional development team
- Improved existing application features and contributed to production deployment workflows
- Collaborated with team members to establish development environment standards and processes

Full Stack Developer – Capstone Project

2025 – 2026

Laguna State Polytechnic University – San Pablo City Campus

- Led full-stack development of a capstone system from requirements through deployment
- Integrated database design, authentication, and RBAC into a production-ready web application

PROJECTS

Project DILMS

project-dilms.vercel.app

Next.js 16, React 19, TypeScript, Tailwind CSS 4, Prisma 6, PostgreSQL, Vercel Blob Storage

- Developed a school-focused digital information and learning management system supporting admin, teacher, student, and parent workflows

- Built features for announcements, attendance tracking, class schedules, learning modules, grades, student records, reports, and document uploads (e.g., Form 137)

ResumEasy

resumeeasy-build.vercel.app

React 19, TypeScript, Vite, Tailwind CSS, React Router, Supabase, PDF Export (html-to-image, jsPDF, html2pdf.js)

- Built a web-based resume builder allowing users to select layouts and color themes, then enter profile details, skills, experience, education, projects, and certifications
- Implemented Supabase authentication and data persistence, plus polished PDF export of the final resume

SIPP – Student Internship Progress Platform (Capstone Project)

Hosting expired

PHP, MySQL/MariaDB, HTML/CSS/JavaScript, Bootstrap 4, AdminLTE, jQuery, PHPMailer, Dompdf/mPDF

- Built a student internship management portal handling registration, document tracking, weekly reports, time logs, and approvals across coordinators, campuses, departments, and programs
- Implemented authentication, session management, and automated document generation through PHP and AJAX-driven endpoints

Rentertain (On-the-Job Training Project)

Hosting expired

PHP, MySQL, React, Vite, React Router, PHPMailer

- Built a rental management system for equipment and videoke rentals with customer-facing and admin-facing interfaces
- Implemented customer authentication, catalog browsing, cart and checkout, rental tracking, inventory management, and order history

ALUmytics

Hosting expired

PHP, MySQL/MariaDB, HTML/CSS/JavaScript, Composer (PHPWord, PHPMailer)

- Built an alumni management and analytics system with separate alumni and staff interfaces, including registration, email verification, and profile management
- Developed staff-facing reporting tools covering demographics, employment, certifications, awards, and tracer studies

EDUCATION

Bachelor of Science in Information Technology – Major in Service Management

2022 – 2026

Laguna State Polytechnic University – San Pablo City Campus

STEM Strand (Science, Technology, Engineering and Mathematics)

2020 – 2022

Saint Thomas Academy – Sto. Tomas City, Batangas

CERTIFICATIONS

- Lean Six Sigma Yellow Belt (2025), Laguna State Polytechnic University – San Pablo City Campus

TRAINING COMPLETED

- TESDA NC II Training – Computer Systems Servicing (2025), The Big Five Training and Assessment Center Inc.
- TESDA NC II Training – Contact Center Service (2026), LFS Training and Assessment Center Inc.

PROFESSIONAL DEVELOPMENT

- 15th EdukCircle International Convention on Engineering and Computer Technology – University of the Philippines Diliman (April 2023)
- Innovate, Automate, Elevate: Bridging Applications with Emerging Technologies – Laguna State Polytechnic University-SPCC (March 2025)
- Innovation in Development – Online (May 2025)
- Labor Education for Graduating Students – Online (November 2025)
